

DIGITAL INTELLIGENCE ASIA 2026

5 - 7 OCT 2026 | MITEC, KUALA LUMPUR

WHERE INTELLIGENCE
BECOMES RELEVANCE

www.cyberdsa.com/dia2026

Organised By

Held in conjunction with

WHERE INTELLIGENCE MEETS ACTION

Digital Intelligence Asia (DIA) 2026 is more than a technology showcase. It is where intelligence moves beyond screens and becomes real-world capability.

Held alongside CyberDSA 2026 from 5-7 October 2026 at MITEC Kuala Lumpur, DIA connects decision-makers, innovators, and technology leaders who are shaping how nations think, secure themselves, and operate in the digital age.

If CyberDSA protects the digital world,
DIA builds the intelligence that powers it.

BEYOND TECHNOLOGY SHOWCASES

DIA is built for organisations that lead transformation — not react to it. This is not another AI or robotics exhibition.

It is a strategic convergence platform where:

Algorithms become operations

Data becomes decisions

Machines become action

Innovation becomes national capability

From AI systems to automation platforms, DIA demonstrates how digital intelligence creates measurable impact across defence, government, industry, and cities.

HOSTED UNDER CYBERDSA 2026

DIA 2026 operates under the proven authority of CyberDSA, Southeast Asia's leading cyber defence and national security platform.

This strategic alignment ensures exhibitors engage directly with:

Government procurement authorities

Defence agencies

Critical infrastructure owners

National digital strategy leaders

C-suite decision-makers

Together, CyberDSA and DIA form a complete ecosystem:

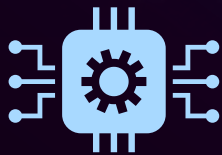

Cyber Security + Digital Intelligence + Automation

One venue. One week. One high-value audience.

SIX PILLARS OF DIGITAL INTELLIGENCE

Artificial Intelligence

Machine learning, predictive analytics, cognitive systems

Humanoids & Intelligent Machines

Human-like systems designed for service, defence, and industrial environments

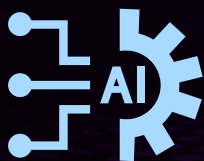

Data Intelligence

Big data platforms, real-time insights, intelligence engines

Digital Governance

Policy frameworks, compliance, responsible AI implementation

Robotics & Automation

Autonomous systems, collaborative robots, industrial automation

National Digital Readiness

Infrastructure, workforce transformation, and capability development

WHO ATTENDS DIA 2026

DIA brings together high-level decision-makers across sectors:

- **Government & Defence Agencies**
Policy makers, national security leaders, procurement authorities
- **Digital Transformation Leaders**
CIOs, CDOs, CTOs, innovation directors
- **AI & Technology Innovators**
Developers, research institutes, startups
- **Industrial & Manufacturing Leaders**
Operations heads, engineers, Industry 4.0 adopters
- **Smart City & Infrastructure Planners**
Urban technology leaders and solution providers
- **Investors & Strategic Partners**
Venture capital, funding agencies, system integrators

WHY EXHIBIT AT DIA 2026

- **Access Decision-Makers**
Meet qualified buyers with procurement authority
- **Demonstrate Live Capability**
Showcase working solutions and real applications
- **Build Strategic Partnerships**
Connect with governments, integrators, and enterprise clients
- **Strengthen Regional Presence**
Position your brand as a serious player in Southeast Asia
- **Expand Beyond Cybersecurity**
Reach AI, automation, robotics, and smart infrastructure markets

WHO SHOULD EXHIBIT

DIA is designed for organisations delivering intelligent technologies and solutions across:

- **Artificial Intelligence & Machine Learning platforms**
- **Robotics & autonomous systems**
- **Intelligent automation & process optimisation**
- **Big data, analytics & intelligence software**
- **IoT & cyber-physical systems**
- **Smart city & infrastructure technologies**
- **Defence technology & unmanned systems**
- **Digital governance, compliance & security solutions**
- **System integrators & solution providers**
- **Research institutions & innovation labs**

If your solutions enable smarter decisions, faster operations, and national capability building - **DIA is your platform.**

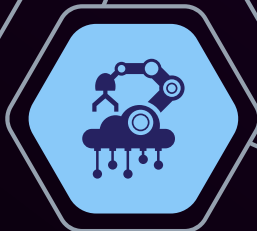

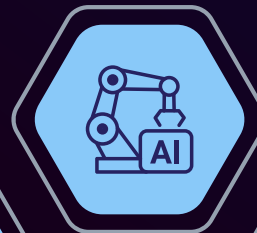

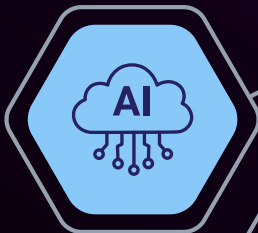

MARKET OPPORTUNITY

Southeast Asia is one of the world's fastest-growing digital economies. Governments and industries are actively investing in:

AI & Automation

National Cybersecurity

Industry 4.0

Smart Manufacturing

Digital Infrastructure

Robotics Deployment

DIA positions your organisation at the centre of this transformation.

PARTICIPATION OPTIONS

Space Only

Custom-designed exhibition space

Minimum: 9 sqm

Shell Scheme

Ready-built booth with essential facilities

Minimum: 9 sqm

Sponsorship Opportunities

Enhance your visibility with:

- Speaking slots
- Hosted buyer programmes
- Pavilion branding
- Premium placement alongside CyberDSA

EVENT DETAILS

Digital Intelligence Asia (DIA) 2026

5 – 7 October 2026

MITEC, Kuala Lumpur

Held Alongside

**CYBER
DSA 2026**

BRAND

POSITION YOUR BRAND WHERE INTELLIGENCE COMES TO LIFE

**2026 is the year intelligence moves
from theory to action.**

Join the platform where:

- Ideas become solutions
- Solutions become capability
- Capability becomes national advantage

Speak with the DIA team and expand your
presence across the digital ecosystem.
